JUDICIAL REQUESTS

PLAINTIFF'S COMPLAINT AND REQUESTS

INTRODUCTION

Havensight and Woodhouse move the Court, here, to default Meta Platforms Inc., the U.S. Government via the U.S. Attorney, acting in his capacity, Alphabet Inc., and Gibson Dunn Inc. for engaging in patent terrorist behavior, historic plead felonies, conflicts, violations, and unset records - the worst legal conduct in United States history, and engaging in acts such as, but not limited to, war crimes, and coercion and collusion of U.S. Government actors. Specifically, such historically demonic behavior includes:

acts of genocide of which there is video evidence in possession of multiple U.S. Government Agencies, coercion and collusion of U.S. Attorneys, patently and feloniously accessing Government computer systems, feloniously doctoring Court Records, feloniously stealing Customer Orders, feloniously interfering with Customer Orders, feloniously imprisoning Customers and Prospective Customers in a "genocide hotel," paying for supermodels to service Judicial Officers, in a quid pro schemata of sexual favors, in return for takings of Woodhouse's Company Orders, and the lack of enforcement from Judicial Officers and the U.S. Government, of the most plead felonies, conflicts, red

COMPLAINT AND REQUESTS

1 flagged cases, and unset record, in U.S. legal history. *18 U.S.C. Section 130.*
 2 *Rome Statute of the International Criminal Court. International Airport Centers v.*
 3 *Citron*, 440 F.3d 418 (7th Cir. 2006). *In Re American Airlines*, 972 F.2d 605 (5th
 4 Cir. 1992).

6 Further, Meta Platforms Inc. also must pay restitution to Woodhouse for
 7 privacy violations. The District Court must advance this filing constitutionally, as
 8 he opted out of the class action suit settlement for facial recognition technologies,
 9 and is similarly situated. *Patel et al. v. Facebook, Inc.*, 932 F.3d 1264, 1273 (9th
 10 Cir. 2019). It is also ethically bound to make the genocide videos, in possession of
 11 the U.S. Government public, in order to enjoin future conduct.

15 Specifically, here, *Counsel Not of Record* for the Triple Conflicted Parties,
 16 held impromptu death trials, in a hotel, occupied by U.S. Attorneys, routinely
 17 killing multiple victims in single evenings, after asking them, either, two, to, three
 18 questions for a period of months, on an every single day basis. After Woodhouse
 19 notified in writing the U.S. Attorneys of the death trials, in over fifty
 20 correspondences on this nightly basis, yet no action was taken, and no response
 21 was sent. Additionally, it is alleged, but the war crimes are not alleged, they are
 22 testified to, that *Counsel Not of Record* had installed contractors of his hiring in
 23 local law enforcement agencies, thus preventing Woodhouse from dialing local law
 24 enforcement, and requesting F.B.I. and A.T.F. intervention in writing.

COMPLAINT AND REQUESTS

Moreover, Woodhouse was sleep deprived, as a result of continued noise trespass, and intervention of over three hundred assassination attempts from contractors hired by the conflicted Parties, including contractors using military grade weapons, military infrastructure, and breaching for non traditional roads to assassinate Woodhouse. Finally, Judges, Clerks, U.S. Attorneys, Counsel Not of Record for Gibson Dunn, and the Triple Conflicted Parties, all, took positions in a hotel in Pismo Beach, California, what has now come to be known as “the genocide hotel,” and engaged in this patent schemata of bribery and collusion, even after the acts of genocide and death trials being conducted by *Counsel Not of Record*, with ball machine guns, were reported to the U.S. Attorneys Office, and filed into the public Federal Court Record, which was before two Federal Judges, Judge Snyder, and Judge Klausner. It is also likely that Judge Klausner and Snyder also took positions in this genocide hotel, while concurrently ruling on the genocide, in what now appears to be, either, a bizarre complete loss of capacity.

There are videotapes of the genocide videos in possession of the U.S. Government, Woodhouse can testify as to witnessing the death trials, hosted by Counsel Not of Record, in the genocide hotel, in addition to the noise and physical trespasses. Moreover, it is known but not testified to that one supermodel was dragged to her death after being tied to a truck, as part of this genocide schemata, funded by Alphabet Inc., Meta Platforms Inc., Nike Inc. and U.S. Government.

COMPLAINT AND REQUESTS

1 Woodhouse can testify to, an assailant breaching his property, with a firearm to tie
2 his person to a truck within 12 days of this attack on the supermodel, and this
3 assailant accidentally disappeared during this process, in another divine
4 intervention of good fortune, and almost clue like communication, to the conflicted
5 Parties, and Appellate Court.
6

7
8 Furthermore, the U.S. Attorneys were routinely advised that with the most
9 plead felonies, conflicts, red flagged cases, violations and unset records in U.S.

10 legal history that the conflicted Parties and Alphabet Inc., and the U.S.

11
12 Government could not prevail in the matters. Regardless, they did nothing to
13 enforce the plead felonies, did nothing to quell the genocide. In fact, Woodhouse
14 can testify that he overheard them routinely interacting with impersonating
15 Counsels, to attempt to file false resolutions, while everyone was enjoying a
16 terrorist motif in the genocide hotel, collectively. *Decl. Mr. B. Woodhouse.*
17
18

19 Additionally, Judges, U.S. Attorneys, and the Conflicted Parties, on a daily
20 basis sent noise death threats, threats of killing, via hired organized criminals. This
21 would eventually morph into a multitude of assassination attempts with organized
22 criminals, in both, Pismo Beach, CA., and Los Angeles, CA. Judge Martin
23 Tangeman attempted to rape a supermodel, such that she had to run around the
24 hotel screaming rape, after raping a minor in full view in the glass of the genocide
25 hotel, after Woodhouse has filed into the Federal Record that Judge Tangeman was
26
27
28

COMPLAINT AND REQUESTS

1 harassing Woodhouse for affections from his Cousin's wife, and the U.S.

2 Attorneys were instructed to remove him from the genocide hotel.

3
4 Moreover, two of the matters at issue, involved the obstruction of binders of
5 depositions from imposters, which the Triple Conflicted Parties, had taken, and
6 had provided to Judge Blumenthal are also likely responsible for the death of a
7 Rhode Scholar, who was the colleague of Woodhouse, and had her deposition
8 impersonated. Further, the Triple Conflicted Parties and Alphabet Inc. also
9 doctored a State Court Record to make Mr. Woodhouse look like an incarcerated
10 criminal, despite having never been convicted of a crime, and stole feloniously all
11 of Woodhouse's Customer Orders, after breaching his computer files, on a daily
12 basis. If this Federal Court is unable to enforce the plead criminal conduct, plead
13 conflicts, legal violations including red flagged cases, and acts of war crimes, then
14 the next step would be for anti terrorist teams to breach the Federal Court, take
15 possession of the Judges, and close the Courts, until the U.S. Senate can better
16 understand what procedures and intervention is required to ensure that we do not
17 lose our Federal Court to terrorist actors ever again. *Decl. Mr. B. Woodhouse.*

18
19 Woodhouse humbly and respectfully, asks that the California Attorney
20 General, to consider removing any and all U.S. Attorneys, who are found to have
21 engaged in terrorist acts, and felonious conduct. He is sued symbolically, here, and
22 to gain his assistance, in bringing some semblance of reality, decency and decorum

23
24

26
27
28
COMPLAINT AND REQUESTS

1 back to the Courts. Woodhouse also advocates for the California Attorney General
2 to file against Judge Miller, and Judge Van Dyke, in the 9th Circuit, as upholding
3 the most plead felonies, conflicts, red flagged cases, unset records, and violations,
4 in matter 22-55045, makes them dirty miscreants, who take bribes, but when they
5 help conflicted Parties not pay for historic plead criminal activity, after it has
6 burned a 9th Circuit Judge, one of his own, it makes them terrorists. These
7 genocide enablers belong in a Guantanamo Bay, with all of the highest-level
8 threats to the U.S. We are not just talking about the daily meals purchased for the
9 9th Circuit Judges by Alphabet Inc. and Meta Platforms Inc., which Woodhouse
10 overheard, while struggling with food security, or, the Nike contractors playing
11 cards in Reno Casinos in obscene record amounts, we are talking about more
12 serious terrorist ethos, upheld by the elevated Court. *Decl. Mr. B. Woodhouse.*

13 Immunities will not help these Judges, as National Security law, provides for
14 counter measures, against U.S. actors, who engage in, either, treason, or, acts of
15 terrorism, which subvert the U.S. Government. *National Security Act Art. 7.*

16 There is a resolute public policy interest, in holding U.S. Attorneys accountable for
17 concealing their *Orders to Settle*, and the 9th Circuit failing to enforce *Orders to*
18 *Settle* from its fellow Judges, after a murder on the ordering Judge. It should also
19 be stated that it is not the act of the Montana based 9th Circuit Judge taking the
20 bribe from Ms. Hillary Clinton on the terrorism that is unbelievable, it is the fact

21
22
23
24
25
26
27
28
COMPLAINT AND REQUESTS

1 that Woodhouse had to overhear the bribery conversation, while in the privacy of
 2 his own residence, bribery obviously does not purchase basic common sense.

3 We cannot simply end the fabric of society and civilization for some silver
 4 spoon Dutch royal, who has no legal abilities, and continually leans, on illegal
 5 visits some policy advocate that poses as a National Security advisor, and false
 6 promises of employment. It mocks the U.S. Courts to the rest of the World.
 7 Dictators in Mali, and Myanmar, probably operate Courts, with Judges, who have
 8 more deference to patent, and plead war crimes, than those bestowed with the
 9 honor of serving the U.S. People. Further, this work is a complete abandonment of
 10 prior case law, stating that genocide has no place in civilization, let alone the legal
 11 profession. *Siderman de Blake v. Republic of Argentina*, 965 F.2d 699 (9th Cir.
 12 1992). *See Sarei v. Rio Tinto*, 671 F.3d 736 (9th Cir. 2011). *See also Movsesian v.*
 13 *Victoria Versicherung AG*, 670 F.3d 1067 (9th Cir. 2012).

14 As we sit at the U.N. and other Councils, and try to lead on spreading
 15 democracy, and basic human rights, we micturate on ourselves, by letting some
 16 *Counsel Not of Record* burn 9th Circuit Judges alive, and set records, in plead
 17 criminal conduct, and human rights abuses. *U.S. v. Yunis*, 924 F.2d 1086 (D.C.
 18 Cir. 1991)(stating genocide as a concern of universal nations). When the 9th
 19 Circuit rules for a Party, who burned alive one of their own, and committed the
 20 most plead crimes and conflicts in history in the paper filings, it is also analogous

COMPLAINT AND REQUESTS

1 to some kind of bizarre combination of down syndrome, mixed with sado
2 machoism. Finally, if A.G. Bonta's investigation turns up, to find that Mr. Harris,
3 U.S. Attorney, was in the room when *Counsel Not of Record*, either, held
4 impromptu death trials, or, when the 9th Circuit Judges and Wilson Sonsini
5 *Counsel Not of Record* were burned alive, the death penalty should be sought.

9 **STATEMENT OF FACTS**

10 Shortly, after Woodhouse filed against Alphabet Inc., Meta Platforms, Inc.,
11 Nike Inc., Gibson Dunn Inc., and the U.S. Government, Mr. Van Schwing, and Ms.
12 Linsley, in the middle of 2021, commenced representing all three Parties, Meta
13 Platforms Inc., Nike Inc., and Gibson Dunn Inc., despite having already
14 represented Alphabet Inc., in a previous related matter against Woodhouse's
15 company, Havensight Capital, which was at issue in the matter at hand. Thus, a
16 historic quadra conflict was created. Next, bizarrely, Triple Conflicted Counsel,
17 Mr. Van Schwing, *Counsel Not of Record*, Mr. Doran, and a cadre of U.S.
18 Attorneys moved into the hotel across the street from Woodhouse's private
19 residence. To be precise, it was the Cliffs Hotel, in Pismo Beach., CA., which is in
20 proximity such that all business calls, and sounds can be heard from the hotel, and
21 the house of Woodhouse's Parents respectively. Initially, this appeared to be
22 patent collusion, as there are hundreds of hotels, in Pismo Beach, CA. and San
23
24
25
26
27
28

COMPLAINT AND REQUESTS

1 Luis Obispo, CA., there was no reason for the Parties to take positions collusively
2 at this hotel. Immediately, thereafter the Parties commenced harassing Woodhouse
3 and his elderly Parents by yelling epitaphs and slurs, and making death threats on a
4 nightly basis, usually between the hours of one in the morning to four in the
5 morning. Woodhouse became concerned, as these matters, involved serious torts,
6 involving the U.S. Government, the conflicted Parties, and Alphabet Inc. that the
7 U.S. Attorneys from the onset, might have been confused that they serve the
8 American People.
9

10
11
12 Triple Conflicted Counsel, then, proceeded to commit the most felonies,
13 most conflicts, most violations, most late filings, most red flagged cases, and
14 eventually the most unset records in U.S. legal history, in defending his matters,
15 this included perjury, in lying about binders of depositions of imposters which he
16 provided to the District Court. Woodhouse asked the District Court to produce
17 these, in legal filings, and at hearing. It would later be known that Woodhouse's
18 colleague, who was feloniously impersonated, a Rhode Scholar, would be executed
19 by Triple Conflicted Counsel, in the Pismo Beach, hotel. This fact was brought to
20 the attention of the Appellate Court, and the U.S. Attorneys, and still these
21 conflicted Parties remain unpunished.
22
23
24
25

26 Meanwhile, Judge Tangeman, a Judge who has some kind of bizarre
27 vendetta against Woodhouse for a Pepperdine law colleague, who is the ex-wife of
28

COMPLAINT AND REQUESTS

1 his cousin, demonstrating affection for Woodhouse. Consequently, Judge
2 Tangeman would commence taking position in the Pismo Beach, CA. hotel, and
3 with the assistance of Triple Conflicted Counsel, and perhaps, Ms. Hillary Clinton,
4 as hired Consultant by Meta Platforms Inc., commenced inviting ex girl friends of
5 Woodhouse, comely women from Woodhouse's past, and Woodhouse's distantly
6 related supermodel niece, and colleagues to occupy the hotel with him. At which
7 point, Judge Tangeman commenced raping select members of this group, including
8 one minor, who he had invited, and, through all of the following: consideration,
9 misrepresentation, and force, attempted to have relations with these women. One
10 supermodel colleague actually ran around the room, and yelled rape over fifty
11 times, according to a member of the community.

12 Additionally, Judge Tangeman would bring a false accusation against
13 Woodhouse, citing that he had committed wandering glances over the colleagues
14 undergarment while in a law school class, even bringing a Pepperdine Law
15 professor to the hotel, to assist him in this mentally handicapped and mentally ill
16 pursuit. Woodhouse was not served with the Complaint, and if he had been, he
17 might have responded with the fact that this Pepperdine Law professor, brought to
18 the hotel to assist, routinely interrupted studying for students in the Pepperdine
19 Law library, with his sexual acts in his upstairs office with the classmate, in
20 question, thus Judge Tangeman's wandering eyes investigation might have been
21

22 *COMPLAINT AND REQUESTS*

1 misdirected. It should be publicly stated this colleague, will not be named,
2 Woodhouse believes this colleague to be a victim of rape, and to be a highly
3 impressive: Counselor, Leader, and Mother.
4

5 If this was not nonsensical, in itself, Judge Tangeman and *Counsel Not of*
6 *Record*, and the U.S. Attorneys, started living for over two years in what would
7 become the genocide hotel, in Pismo Beach, CA. Further, this disgusting
8 exhibition of abuse of power, would also go on to include but not be limited to, the
9 residing of various District Judges, who obstructed Woodhouse, and upheld the
10 most felonies and conflicts in U.S. legal history, with one specific Judge filing a
11 Notice of conflict, and then dismissing a *Request for Re-Assignment* for conflict
12 two days later, after Woodhouse provided notice of her filing. These Judges then
13 commenced forcing the supermodel colleague's of Woodhouse's distant related
14 niece to strip for them nightly, routinely waking Woodhouse up in the middle of
15 the night for Tangeman's sexual escapades, Judges, *Counsels Not of Record*, and
16 U.S. Attorneys, all howling, about how the supermodels looked without their
17 clothes on, and other acts of servile sexual misconduct.
18
19
20
21
22

23 It is also alleged, but not testified to as the other conduct, that the U.S.
24 Attorneys hold possession of correspondences from the ruling Judges, requesting
25 consideration, positions at Gibson Dunn, and admission at Harvard University,
26 after the U.S. Attorneys took possession of Ms. Linsley's email account, after her
27
28

COMPLAINT AND REQUESTS

1 death. Woodhouse warned the U.S. Attorneys that the Pismo Beach, CA. hotel
2 was unsafe and that Linsley needed to be evacuated, Woodhouse also witnessed
3 Ms. Linsley, vandalizing the hotel gift store with a hammer, and using illicit drugs
4 prior to her eventual stabbing. He was concerned that she was potentially a danger
5 to herself, and her coercion over the Court, prevented others from providing
6 assistance to her. Triple Conflicted Counsel, and *Counsel Not of Record*, who
7 perpetrated the genocide, never conferred with Woodhouse at the Appellate level,
8 and never actually reported Linsley's death. The 9th Circuit should have defaulted
9 these Parties for placing her name posthumously, on their submitted *Briefs* covers.
10
11

12
13 Eventually, Managers of these models, would commence obtaining ball
14 machine style guns, and commenced executing Individuals, coming into the hotel,
15 in desperate attempts to convince the Judges to stop raping the supermodels, and
16 other women, who were being mislead into the hotel by Tangeman. Eventually,
17 the supermodels themselves would be executed in retaliation for these acts, and for
18 speaking out against Tangeman and the Judges in a uniform manner, whether this
19 was ordered by Ms. Hillary Clinton, who was consulting for Meta Platforms Inc.,
20 is unknown to Woodhouse. Moreover, the hotel then disintegrated into chaos, and
21 Triple Conflicted Counsel, and *Counsel Not of Record*, somehow used contractors
22 to take possession of these ball machine military grade weapons, and *Counsel Not*
23 *of Record* then proceeded to hold impromptu death trials, on a daily basis while the
24
25
26
27
28

COMPLAINT AND REQUESTS

Judges were still deliberating on *Motions for New Trials*, and *Ex Parte Applications*.

Furthermore, Woodhouse estimates that *Counsel Not of Record* murdered around 120 people, with his impromptu death trials, in which individuals, were asked one to two questions, before being shot to death with the ball machine gun at *Counsel Not of Record's* specific order. Additionally, somehow, the Judges also invited a former Yale tennis player, like Woodhouse, into the hotel, and had him murdered with a ball machine gun, forcing one of the supermodels, who had been forced to strip to serve as bait. Woodhouse estimates close to 3,000 people, perhaps, more, have been murdered, either, in, or, within 500 yards of this genocide hotel over the two and half years, in which these matters, have been litigated. Woodhouse's reporting, communication of remediation, and filed witnessed testimony, has done nothing to quell this brain damaged genocide, and wanton abuse of Judicial power.

Additionally, these events were complimented, with Woodhouse being shot at with over 50 rounds from long distance, over a ten minute period, while exercising at a local park, in Pismo Beach, CA. The park is close to a major freeway, much like the genocide hotel, and a place where little leaguers often practice their respective baseball. One projectile missed the head of Woodhouse by inches. Woodhouse was unable to identify the assailant after climbing a hill,

COMPLAINT AND REQUESTS

1 once the gunfire stopped, but its temporal proximity to the filed cases, and death
2 trials, suggest a likelihood, that the conflicted Parties, either, funded this activity,
3 or, directly ordered it.
4

5 Consequently, Woodhouse immediately, and nightly reported the genocide
6 to the U.S. Attorneys, in written correspondences, copying all U.S. Attorneys of
7 Record, in over 50 emails, stating the impromptu death trials, recommending beach
8 of the hotel by A.T.F. to remove the ball machine guns, and breach by F.B.I. to
9 take *Counsel Not of Record* into custody. Woodhouse did not connect with local
10 law enforcement, as Woodhouse had encountered contractors hired by *Counsel Not*
11 *of Record*, serving as local law enforcement, on his property late at night on two
12 occasions. It is now known to Woodhouse, whether U.S. Attorneys were present at
13 the death trials, but Woodhouse can testify that he heard *Counsel Not of Record*,
14 called to by name, and his voice directing the murdering of the victims. It is
15 known that video tapes of these death trials are in possession of multiple U.S.
16 Agencies, and Woodhouse will have them published at trial.
17
18
19
20
21

22 Woodhouse also did not directly witness, but has been materially informed
23 that *Counsel Not of Record*, and potentially the U.S. Attorneys participated in the
24 burning alive of Wilson Sonsini's *Counsel Not of Record*, and a 9th Circuit Judge,
25 who had ordered the U.S. Government to Settle, as a result of a U.S. Attorney's
26 improper letter, being filed by a non admitted U.S. Attorney in the 9th Circuit. The
27
28

COMPLAINT AND REQUESTS

1 name of the 9th Circuit Judge is known to Woodhouse, but he will not make it of
2 record, until the District Court permits, as such. Woodhouse intends to request the
3 Solicitor General to make disclosures as to whether Mr. Harris had, either,
4 participated in, or, had knowledge of, these burnings, and the genocide events. Mr.
5 Harris must also disclose what knowledge he has of the doctored *Court Record*,
6 and the reasoning for the continued obstruction of the binders of depositions of
7 imposters, which the Judge in a fit of loss of capacity, provided to the California
8 Bar.
9
10
11

12 It is also known to Woodhouse that there are credible rumors that a Counsel
13 brought suit on behalf of a baby in the genocide hotel, and that *Counsel Not of*
14 *Record* is a suspect in the murder of the baby. Woodhouse believes that it was also
15 accomplished to intimidate Woodhouse, and was foreseeable after the suit was
16 filed that such conduct might occur, with the death trials being heard on a nightly
17 basis. Further, this heinous act, not only demonstrates that *Counsel Not of Record*
18 is not fit to represent any Parties, it also calls into question the capacity of the U.S.
19 Attorneys, who just sat and watched the genocide unfold, and continued to clap
20 along throughout the whole period. It is also alleged that the conflicted Parties
21 named Ms. Linsley on the *Briefs* filed, despite Ms. Linsley already being deceased
22 months before. This might explain why the Triple Conflicted Parties, and
23 Alphabet Inc., both collectively, failed to include six *Appendices* across six *Briefs*,
24
25
26
27
28

COMPLAINT AND REQUESTS

1 alphabetize their cases, filing improper Appellate filings, filed three red flagged
2 cases among them, in addition to close to fifty cases, which do not stand for their
3 position, emailed documents to the 9th Circuit clerk rather than properly filing
4 them, and this is in addition to the plead felonies, conflicts, violations, attached
5 attorney work product, felonious contacts with the Court Clerk, and other items in
6 the initial matters.
7
8

9 Moreover, included in this collateral attack on, Judges, U.S. Attorneys, and
10 conflicted Trillion dollar companies, on a small business owner, were felonious
11 takings of Customer Orders, which kept Woodhouse destitute during the litigation,
12 frequently negotiating sales of Woodhouse's companies, and imprisoning
13 Woodhouse's Customers in the genocide hotel, such that Woodhouse could hear
14 the felonious conduct, despite having no legal claims to Havensight Capital, and no
15 perfected judgments. Apparently, Judicial Officers assisted in these takings,
16 suggesting and realizing that they profit from them, and use them to pay the
17 supermodels to strip and perform sexual favors for them, and perpetuate their
18 sexual and terrorist fiefdom, which they had created. Woodhouse concedes, it is
19 possible that select Judicial Officers and *Counsels of Record*, and *Counsels Not of*
20 *Record* might have lost their capacity, during this two and half year period.
21
22 Woodhouse witnessed Alphabet Inc's Counsel attempting to carry a detached sink
23 into the parking lot of the hotel, after the infanticide, in what could best be

25

described as the most bizarre and surreal event that Woodhouse has ever witnessed.

The takings were witnessed to, alleged, however also, is that in the collusion, Judges, Triple Conflicted Counsel, Gibson Dunn *Counsel Not of Record*, and Alphabet Inc. conspired to sell allocated settlement funds. There were alleged tacit agreements after settlement funds were transferred to Triple Conflicted Counsel, and Alphabet Inc.'s Counsel to offer to Woodhouse, between the Judges and Gibson Dunn *Counsel Not of Record* to embezzle these funds. The idea was that settlement funds could be to fund the cohabitation at the beach hotel, and pay for more ladies of the night to arrive at the hotel, and that any issues with failed settlement, would be taken care of by, either, assassinating Woodhouse, or, using the customary, two in one filing, without proper assignment, claiming to have not read the Briefs, and pretending to not have reviewed the matter in errata. In the Order at hand, the 9th Circuit demeaned Woodhouse, as a *Pro Per*, despite him representing Havensight Capital L.L.C. in two of the three matters. Woodhouse has since nicknamed this schemata, the "handicapped Dutch shuffle," as it usually involves one Nevada entity of some kind, in addition, and is never especially clandestine.

Woodhouse can also testify to hearing *Counsel Not of Record*, and Alphabet Inc.'s Counsel, and the U.S. Attorneys, on a weekly basis holding settlement

COMPLAINT AND REQUESTS

1 conferences with random impersonators of Counsel, boasting about sending
2 settlements to colluding Judges in the hotels, and routinely sending process servers
3 to drive around Woodhouse's property, pretending to be serving documents. These
4 impersonators of Counsel would change from week to week, and Woodhouse is
5 unsure if any of them, are actual Counsels. Woodhouse also alleges that Triple
6 Conflicted Counsel engaged in espionage in sending a French foreign government
7 agent to pretend to be Woodhouse's Counsel to the District Court, with the Agent
8 interfering with the District Judge without Woodhouse's knowledge until after the
9 rulings, this could be why the Judge failed to adjudicate twelve documents and
10 ruled for Triple Conflicted Counsel, on a *Motion* he responded to nine days late.
11 Triple Conflicted Counsel, and the U.S. Attorneys have not conferred at once at the
12 Appellate level, and Alphabet Inc. only once, despite being sent in writing,
13 warnings over several months, about impersonation of Counsel, and the fact that
14 Woodhouse was and would only ever be, the only *Counsel of Record*, and only
15 Counsel empowered to make communications for my Clients.
16
17
18
19
20
21

22 Moreover, Woodhouse also can testify to hearing a 9th Circuit Judge
23 routinely place orders for meals, with, either, Meta Platforms Inc., or, Alphabet
24 Inc. hired servers in the genocide hotel. In addition, Woodhouse estimates over
25 400 to 500 assassination attempts on his life, over the two year period, usually by
26 organized crime groups, while *Counsel Not of Record*, watched from his genocide
27

1 hotel window, and frequently boasted, such that Woodhouse could hear, comments
2 about taking his life. In one brazen and terrifying act, a full entourage of
3 commandos attempted to breach Woodhouse's property and assassinate him from
4 an uninhabited area adjacent to Woodhouse's property after helicopter insertion,
5 fortunately, they inadvertently incinerated themselves with napalm, in a clue like
6 twist of fate. In the past week, Meta Platforms Inc. contracted with Japanese
7 organized criminals to assassinate Woodhouse in the Los Angeles area. The U.S.
8 Government National Security infrastructure has recordings of these conversations.
9 This attack was neutralized in another clue like strike of destiny. Why the
10 Japanese American terrorists kept beaching the property of Woodhouse's family
11 with machine guns is unknown? Annihilation could have been avoided, by a
12 simple testimony, and Triple Conflicted Counsel paying back the bribe paid for the
13 assassination in the form of settlement. All of these Executives and Judges going
14 terrorist, it is not very rational, family Members can be found by U.S. Agencies
15 with satellite technology very expediently, venture capitalists playing handicapped
16 gangster, is not a real match for classified weapons, professionals, who run counter
17 operations against foreign organizations, and dishonest organized criminals. If I
18 had another clue for: Judges, U.S. Attorneys, and Executives, once the remediation
19 starts, it never really stops.

Moreover, Woodhouse has since explained to the conflicted Parties, Alphabet Inc., and the U.S. Attorneys that remediation is on the table, as a result of intervention from application of National Security Law. Many U.S. Leaders are unsure why there is not a Federal Court, which can enforce terrorist behavior, and what is historic plead into the record felonies, conflicts, perjury, and red flagged cases. Currently, the 9th Circuit obstructed Woodhouse by failing to file an *Assignment Order*, knowing full well that the conflicted Parties and Alphabet Inc., and the U.S. Government cannot prevail under any legal circumstance, and then issuing a defective *Order*, pretending they are not capable of reading the historic plead felonies and conflicts. It is critical that this Federal Court understand that this is the precipice of maintaining a legal profession, ending terrorism from economically elevated Parties, and basically restoring decorum, before total anarchy annihilates the fabric of society. Woodhouse did not fight terrorists and save the U.S. Government from falling in law school, in order for one Dutch Shit Head, and a bunch of trillion dollar Clowns to bill for felonies and genocide, after hosting a genocide event in the hometown of Woodhouse's Parents. In fact, if Woodhouse had known how seriously brain damaged the 9th Circuit could be, and how easily it is bribed, he would not have stood up to the terrorists in Law School.

Additionally, in another fit of handicapped behavior, Mr. Harris, and Judge Tangeman also orchestrated, having homosexuals follow Woodhouse into

COMPLAINT AND REQUESTS

1 restaurants, as part of some kind of sign up scheme in the genocide hotel of
2 plebians, when it was known to Judge Tangeman that Woodhouse was
3 heterosexual, and Woodhouse had already alleged such conduct in the Complaint,
4 served on Mr. Harris. The U.S. Attorneys and Triple Conflicted Counsel, would
5 then go on to pay a homosexual to bring an assault claim, and attempt to confuse
6 the Court, with a doctored handwritten confession, Woodhouse is an appellate
7 Master, he would not have provided the U.S. Attorneys as a heterosexual with a
8 hand written confession, and no U.S. Attorneys ever conferred with Woodhouse.
9 Further, Woodhouse had never met this accuser, which was paid, and does not
10 share the U.S. Attorneys humor, on defamation of orientation, but as it is a green
11 light period now, with the 9th Circuit upholding terrorism, Quasi U.S. Agencies can
12 deliver the messages for Woodhouse.

13
14
15
16
17
18 Finally, Woodhouse alleges that periodically and systematically, the
19 conflicted Trillion dollar Parties, Alphabet Inc., and the U.S. Government, listened
20 to Woodhouse's business calls from the genocide hotel, entered the computer
21 systems of his company's email, and web searches, and contacted all of his
22 prospective and existing Customers. This included, but is not limited to, the
23 Parties representing that they were the true owners of the companies, despite there
24 being no perfected judgments, and no judgments against Havensight Capital L.L.C.
25 whatsoever. The conflicted Parties, Alphabet Inc., and the U.S. Government, often

1 at the behest of terrorist *Counsel Not of Record* attempted to steal the orders, fulfill
2 the orders themselves, and drive all Customers away from Woodhouse, such that
3 he would remain unable to feed himself, during the Appellate period.
4

5 This conduct also included the Conflicted Parties, Alphabet Inc., and the
6 U.S. Government taking his Customer prisoner in the genocide hotel, inviting them
7 to the hotel, and then holding them hostage for no legal reason. Moreover, this
8 brazen conduct included, and was not limited to, imprisoning the Chinese
9 Ambassador to the U.S., in an attempt to stem shoes sales to China, and leverage
10 their coercive behavior against Woodhouse, and his attempt to enforce the most
11 plead felonies, conflicts, unset record, violations, and red flagged cases, ever plead
12 in U.S. legal history. The Conflicted Trillion Dollar Parties, and Alphabet Inc.,
13 also made a practice of “leasing” businesses, in which Woodhouse tried to do
14 business with, whether it be, restaurants, real estate agencies, hedge funds, retailers
15 etc. and then would often attempt to encourage those groups, using bonus
16 payments, to engage in violent acts against Woodhouse, and Havensight Capital

COMPLAINT AND REQUESTS

Genocide is defined as mass killings in a systematic schemata, and can be declared based on killings of, either, groups, or, killing of individuals in confined geographical places. *U.N. Geneva Convention on Genocide*. In this instance, there is videotape evidence, in possession of multiple U.S. and Quasi U.S. Agencies, along with Woodhouse's witness testimony that *Counsel Not of Record* for the Triple Conflicted Parties systematically, unabatedly murdered the innocent and defenseless, in what is best characterized as impromptu death trials, in a hotel in Pismo Beach, CA. The act of a horrific plethora of killings, in, either, a targeted manner, or, schemata, is sufficient to meet violation of this U.N. standard.

Moreover, *Federal Civil R.I.C.O.* Statues are violated, and a private right of action arises within Federal obstruction when a witness is intimidated by Opposing Counsels, and Parties. *18 U.S.C. Section 1512. United States v. Bell*, 113 F.3d 1345, 1349 (3d Cir. 1997). Specifically, there is a private right of standing for a *Section 1985* claim under the *Civil Rico Obstruction Statue*, as ruled on by the 9th Circuit. *Miller v. Glen Helen Aircraft Company*, 777 F.2d 496 (9th Cir. 1985). *Chahal v. Paine Webber Inc.*, 725 F.2d 20 (2d Cir. 1984). There is also standing bestowed by the Supreme Court, to bring a private action, against the U.S. Government itself, when its conduct arises to a level that attempts to persuade a witness not to testify. *Webb v. Texas*, 409 U.S. 95 (1972). It might also be posited that Triple Conflicted Counsel and *Counsel's Not of Record* terrorist conduct,

COMPLAINT AND REQUESTS

1 could be construed to also violate the importantly legislated and venerable
2 *California Human Trafficking Law*, as it concerns the impediment of human
3 freedoms, a Constitutional right. *U.S. Constitution. S.B. 657*.
4

5 Furthermore, actual withdrawal of testimony is inconsequential, and in this
6 matter, Woodhouse has come forth, to restore the profession, stand up to terrorists,
7 and send a message to trillionaires that believe their respective economic girth,
8 allows them to engage in such terrorist acts. *United States v. Davis*, 183 F.3d 231,
9 250 (3d Cir. 1999). While it is true that a nexus between active notice and the
10 intimidation is a requirement, this is not an issue in these matters, as Woodhouse
11 either, heard, saw, and experienced, these heinous acts. *Decl. Mr. B. Woodhouse*.
12
13
14

15 First, Woodhouse testifies *that Counsel Not of Record*, stood with three to
16 four other Individuals in a room and summoned random helpless defenseless
17 victims to s room in the genocide hotel, in the evening hours, usually between 5
18 and 7 p.m. p.s.t. and proceeded to order them to be shot, with a ball machine style
19 weapon, often nicknamed a Hershel, usually *Counsel Not of Record* held these
20 impromptu trials, such that three to four individuals were murdered on a nightly
21 basis for a period of three to four months. Woodhouse immediately, upon
22 witnessing this, alerted U.S. Attorneys in writing, and via telephone of the
23 situation, and made written recommendations for A.T.F. to breach the hotel, and
24 regain the ball machine guns, and for the F.B.I. to investigate and prosecute those

responsibility, with an emphasis on ending the genocide trials, as expediently as possible. These written warnings and phone messages, were never returned, despite the U.S. Attorneys being *Counsels of Record*, and compelled to respond to what Woodhouse believes is the worst crimes perpetrated on U.S. soil, since the Holocaust in Germany during World War II. *Decl. Mr. B. Woodhouse*.

Second, the District Court must take judicial notice that the death of a Rhode Scholar colleague of Woodhouse, was perpetrated in the genocide hotel, in addition, as a result of Triple Conflicted Counsel, Mr. Van Schwing, taking depositions of imposters feloniously, in the non discovery period. She did not have to die, because of Triple Conflicted Counsel's own ignominious self-belief in his own coercion schemes. Triple Conflicted Counsel also provided these depositions to the District Court, in the matters, which brought rise to this filing, and in that suit, Judge Blumenfeld inadvertently awarded sanctions, based explicitly in his *Order* on Triple Conflicted Counsel's felonious entry of settlement offers, despite Triple Conflicted Counsel, being possibly quadra conflicted, and pleading the most procedural violations in U.S. legal history in a single matter. *District Matter 2:21-cv-6727*. Judge Blumenfeld would go on to dismiss Woodhouse's *Motion for a New Trial*, after Triple Conflicted Counsel filed a response nine days late.

Third, the burning of a U.S. 9th Circuit Federal Judge and the Wilson Sonsini Director, who was a *Counsel Not of Record*, in the genocide hotel by allegedly

COMPLAINT AND REQUESTS

1 *Counsel Not of Record*, the Conflicted Parties, and Alphabet Inc., also, should be
2 construed to fit within the legal definition of genocide, as it was a schemata of
3 targeted killing against a specific group, namely Officers of the Court. *U.N.*
4 *Geneva Convention on Genocide. Fowler v. United States*, 563 U.S. 668 (2011).
5 Woodhouse witnessed this hit acoustically, and alerted U.S. Attorneys
6 appropriately. *Decl. Mr. B. Woodhouse*. The District Court, here, should take
7 offense to Triple Conflicted Counsel, and *Counsel Not of Record*, terrorist and
8 violent acts, towards a Federal Judge.
9
10
11

12 Moreover, such conduct, also meets the criteria for violation of Civil
13 R.I.C.O. as there is an act, which is intended to intimidate Woodhouse, and curtail
14 his legal rights. The burning of the Judges, and the impromptu death trials, here, in
15 the hotel across from the property of the family of Woodhouse, would be sufficient
16 for such an act. It creates reason for Woodhouse to relinquish legal rights, as a
17 result of coercion. The conflicted Parties, Alphabet Inc., and the U.S. Government,
18 are responsible for the causation, here, as they did one of the following
19 respectively: participated in, funded, and acted negligently, in the perpetration of
20 the act. Moreover, this is not an alleged fact, as Woodhouse witnessed these acts.
21
22 *Decl. Mr. B. Woodhouse*.
23
24
25

26 Moreover, the Parties also are alleged to have paid for military contractors
27 and Japanese American terrorists to breach Woodhouse's property, and assassinate
28

COMPLAINT AND REQUESTS

1 Woodhouse. The act is also testified to, and occurred between the hours of 2 a.m.
2 to 3 a.m. on May 14th, 2023, at the Pismo Beach address. An additional act also
3 occurred in a four month period prior to that, with only military contractors in a
4 platoon size, attempting to breach the property, and accidentally incinerating
5 themselves with a napalm like substance. While the Japanese American terrorists
6 were not able to harm Woodhouse, they did leave an individual deceased from
7 contusions to the head, on his property shortly after the attack. *Decl. Mr. B.*
8 *Woodhouse.* While Woodhouse has completed his M.C.L.E. in 2022 credit by
9 watching ethics videos, on avoiding “bro culture” in law firms, this kind of
10 behavior supersedes “bro culture,” and steep into the realm of actual treason, and
11 terrorism.

12 Such an atavistic act of conventional war, with the synthesis of Japanese
13 American terrorists, and foreign military contractors, into a single event, with
14 military grade weapons used, stalking techniques, and sophisticated tactical
15 developments would constitute intimidate under Federal law. *18 U.S.C. Section*
16 *1512. Fowler v.* Fortunately, for Woodhouse, one of the military contractors
17 prematurely fired his weapon at the onset of the siege, alerting him that it was time
18 for more biblical intervention under the castle doctrine. Again, the conflicted
19 Parties, Alphabet Inc., and the U.S. Government would be, either, the nexus, and
20 causation of the act, for any of the following: funding, participating, and
21

22 *COMPLAINT AND REQUESTS*

1 negligently failing to cease, this conduct. Moreover, Woodhouse witnessed the
2 act, and there was actual intimidation created, with this felonious, if not terrorist
3 conduct.
4

5 Fifth, Woodhouse alleges that he has survived between an estimated 400 to
6 500 assassination attempts, on his life, during the course of this litigation, primarily
7 at his Parents residence. These are either, as a result of direct funding from, either,
8 the conflicted Parties, and Alphabet Inc., or, by sovereign Parties inspired by their
9 respective conduct. The idea that the conflicted Parties and Alphabet Inc., would
10 not pay restitution after pleading the most felonies in U.S. legal history, the most
11 conflicts in U.S. legal history, the most violations in U.S. legal history, three unset
12 records, and the a multitude of red flagged cases, is just self-belief in coercive
13 powers over the Courts. All of these assassination acts, would meet the definition
14 of an act, perpetrated to intimidate Woodhouse, and these conflicted Parties, and
15 Alphabet Inc. are alleged to be the nexus of proximate cause, here, with the
16 funding of the contractors, organized crime grounds, and other entities.
17
18
19
20
21

22 Sixth, the U.S. Attorneys independently have met the threshold for witness
23 intimidation, despite having never actually conferred with Woodhouse, on any
24 matter. The U.S. Attorneys acts of filing fake charges, allegedly doctoring
25 confessions, and harassing Woodhouse with slurs, while cohabitating with the
26 terrorist *Counsel Not of Record* are all that is requisite. *Combs v. Rockwell Int'l*
27
28

COMPLAINT AND REQUESTS

1 *Corp.*, 927 F.2d 486, 488 (9th Cir. 1991)(doctoring discovery evidence sufficient
2 conduct for default and punitive damages award). None of the U.S. Attorneys
3 have been employed by *Counsel Not of Record*, and a trip to the chair, is the only
4 prize, for not having sufficient awareness to avoid living with Gibson Dunn, in a
5 patently obvious collusive manner. They are the proximate cause of this illegal
6 obstruction act, as Woodhouse witnessed this conduct, via their respective noise
7 trespass onto his Woodhouse's property. Such bullying, could also be construed as
8 torture, based on the sleep deprivation, deprivation of relations, and deprivation of
9 the basic right to earn a living, this determination, however, is not required for
10 satisfaction of the tort. *Lolong v. Gonzalez*, 484 F.3d 1173 (9th Cir. 2007).

11
12
13
14
15 Moreover, Woodhouse warned Triple Conflicted, Alphabet Inc., and the
16 U.S. Attorneys that it was witness intimidation and felonious for the Parties to have
17 contact with Woodhouse's family Members. *U.S. v. Brande*, 329 F. 3d 1173 (9th
18 Cir. 2003). Judges, here, routinely: emailed Woodhouse's father, made threats
19 against his middle school aged niece from the hotel, traveled to his niece's private
20 school to attempt to influence Woodhouse, and aggrandize the now stabbed in the
21 head, Ms. Linsley, and engaged in human trafficking, in forcing his distantly
22 related supermodel Danish niece, to perform sex acts for Judges, friends of the
23 Judges, and other unknowns, in front of Woodhouse. In fact, the genocide hotel's
24 location was especially chosen, such that Woodhouse would be forced to watch his

COMPLAINT AND REQUESTS

1 niece, and her colleagues perform, in some kind of sexual torture ritual. *Decl. Mr.*
2 *B. Woodhouse. S.B. 657. Miller v.* Such conduct rises to the level of an indecent
3 act, which had the effect to intimidate Woodhouse, both, as a Woodhouse, and as
4 opposing Counsel.
5

6 Her eventual death, here, was likely a result of the Judges covering up their
7 acts of torture, and terrorism. If Chief Justice Roberts was behind the sexual
8 torture, he should be summarily detained by the U.S. Government, and not just
9 tried, under National Security provisions. It is also possible that he engaged in
10 torture to cover up a Pepperdine Law professor's rape, as referenced above,
11 regardless, the intent is not needed, to prosecute for acts of terrorism. *National*
12 *Security Art. 7.*
13
14
15

16 As Ms. Linsley is deceased, it is of no consequence. One might posit that it
17 was somewhat bizarre, considering she had speech impediments that surmounted
18 to a serious disability, failed to write her name in State Court, while representing
19 the Parties in the initial matters, and would eventually turn into a junkie, who
20 vandalized private property, that Judges thought she was the pinnacle of our
21 profession. Perhaps, Courts should focus less on placing candidates into Harvard,
22 off of Judicial bribes. Woodhouse also alleges that it is possible that a Party has
23 wagered on these events, and wagered on the ability to conduct genocide, sexual
24 torture, and have Triple Conflicted Counsel plead historic felonies, and conflicts,
25
26
27
28

COMPLAINT AND REQUESTS

1 and still prevail, based on the complete lack of character in the 9th Circuit.

2 Woodhouse does not know who these Parties are, who have such influence, but the
3 circumstances and events, speak to some kind of red room like game, mocking the
4 patent indecency of the 9th Circuit Justices.
5

6 Finally, Woodhouse concedes that it might not have standing, in the alleged
7 killing of the infant by *Counsel Not of Record*, and the witnessing of Alphabet
8 Inc.'s Counsel brazenly, bizarrely, and perhaps in mental illness, carrying the
9 utilized sink from the hotel into the Cliffs hotel parking lot, in Pismo Beach,
10 California. *Decl. Mr. B. Woodhouse*. This act, certainly curiously mirrors the
11 smashing of glass exhibition cases, and vandalization of the gift store by Ms.
12 Linsley, who might now be deceased, Triple Conflicted Counsel has yet to confirm
13 her status. Certainly, Triple Conflicted Counsel's *Briefs* would be invalid, if she
14 jointly filed them from the grave, as legal filings can only be filed by living beings.
15
16
17
18
19 *Federal Rules of Appellate Procedure*.

20 Nonetheless, Woodhouse believes that Court should take the perpetration,
21 and killing of an infant, while in the representation of these conflicted trillion
22 dollar companies, and Alphabet Inc., to be a violation of the *U.N. Genocide*
23 *Convention Article*, and to be further evidence of a preponderance for engagement
24 in the witness intimidation acts attested to. *Federal Rules of Evidence 403*.
25
26

27 Woodhouse would like to Court to recognize that it did not have any opportunity to
28

COMPLAINT AND REQUESTS

1 intervene in the murder of the infant, and find's this completely abject moral
 2 behavior, to grossly overshadow, other discussed torts, such as embezzlement of
 3 Woodhouse's companies by these conflicted trillion dollar Parties, and Alphabet
 4 Inc., doctoring of State Records feloniously, impersonated Counsel, and
 5 impersonated depositions, in addition to the U.S. Government's negligence in
 6 failing to make response of any kind. This suit is not one about "bro culture," it is
 7 about total loss of U.S. Leadership, the end of a profession, and proliferation of
 8 terrorism, conducted by trillion dollar entities, as a result of failures in corporate,
 9 and public education. For me, the belief that the Parties would plead the most
 10 felonies and conflicts in U.S. history, and commit genocide in patent collusion with
 11 the U.S. Attorneys, and then would just waltz off into the sunshine without paying
 12 restitution, is difficult to fathom, and when the remediation starts, I do not think
 13 anyone will be able to laugh again.

20 **II. TAKINGS OF CUSTOMER ORDERS AND COMPANIES IN** 21 **VIOLATION OF THE TORT OF FRAUD AND TORTIOUS** 22 **TAKINGS** 23 24

25 The tort of fraud is found for any act that intentionally misrepresents a fact,
 26 which induces a Party to act to the detriment of another. *Hanon v. Dataproducts*
 27 *Corp. Inc.*, 976 F.2d 497 (9th Cir. 1992)(material misrepresentation of corporate

facts did not satisfy disclosure requirements). *See S.E.C. v. Todd*, 642 F.3d 1207 (9th Cir. 2011). Moreover, *Rule 9(b)* pleading requirements are satisfied even if the acts is not specifically alleged, but simply patently based, in either, fraud, or, a schemata of fraud. *Darling v. Spaou*, 411 F.3d 1006 (9th Cir. 2005). A single transaction need not be delineated and cited to, in order for a Complaint to proceed. *Cooper v. Pickett*, 122 F.3d 1186 (9th Cir. 1997). Lastly, legal impossibility is not a defense to the torts involving economic espionage. *U.S. v. Kai-Lo Su*, 155 F.3d 189 (3d Cir. 1998). Also, a claim becomes ripe, once notice is provided. *McMillan v. Goleta Water Dist.*, 792 F.2d 1453, 1455, 1457 (9th Cir. 1986). Woodhouse, here, provided notice, via email to, both, the U.S. Attorneys, the Triple Conflicted Counsel, and Alphabet Inc.’s Counsel. *Decl. Mr. B. Woodhouse*.

Further, the fraud need not be intended by the Party to deceive, only to be the causation element of reliance to detriment. *Hernandez-Robledo v. I.N.S.*, 777 F.2d 536 (9th Cir. 1985). Lastly, negligent reliance can give rise to a claim, there is no specific requirement for the Plaintiff to exercise diligence in investigating the fraudulent conduct. *See Van Meter v. Bent Constr. Co.*, 46 Cal.2d 588, 595, 297 P.2d 644 (Cal. 1956). Moreover, even Economic Scholars, and non-Legal commentators have recognized that processes, which eradicate fair due process in private bargaining, can be, either, inefficient, or, cause asymmetric information

4 to learn collectively if we read the clues in my filings.

5
6 The District Court has found fraud, in similar instances, where Parties either,
7 withheld, or, stole records, in bids on contractual negotiations. *U.S. v. Lemire*, 720
8 F.2d 1327 (D.C. Cir. 1983). *Buffalo Teachers Federation v. Tobe*, 464 F.3d 362
9 (2d Cir. 2006). This case, here, is analogous, as it involves the Parties, taking
10 electronic emails, in order to interfere with Woodhouse's Customers, similar to the
11 interference with Raytheon contracts, in *Lemire*. Finally, it should be noted that
12 the time and location is plead, as Woodhouse pleads that it was felonious entry into
13 his email accounts, and computer systems, with the systems being located in
14 California and St. Thomas, and the encrypted email server in Switzerland. The
15 time consists of the 24 months period, during litigation, and the record stealing was
16 perpetual, with prospective Customers, here, being contacted by contractors, before
17 Woodhouse could even response to inquiries.

18
19 Additionally, the Supreme Court, has also stated the rule that any taking
20 from the U.S. government, constitutes compensation, the taking does not have to
21 be, either, permanent, or, consistent. *Arkansas Game and Fish Commission v.*
22 *U.S.*, 568 U.S. 23 (2012). Compensation has also been decreed, to commensurate

COMPLAINT AND REQUESTS

with the full potential of the asset taken. *Brown v. Legal Foundation of Washington*, 538 U.S. 216 (2003). Further, co-conspirators are held, both, jointly, and severally liable. *Oki Semiconductor v. Wells Fargo Bank Nat'l Assn.*, 298 F.3d 768 (9th Cir. 2002)(armed Japanese American terrorists robbing semiconductor chips from factory in Oregon). Judges, and Executives, who compensate these Japanese American terrorists for bribing the Court, and intimidating witnesses, should be included in this "removal of dirty miscreants movement." *U.S. v. DeFries*, 129 F.3d 1293 (D.C. Cir. 1997)(officials salaries forfeited for tampering). The damages, here, could come close to a trillion dollar, when considering the market cap potential of Woodhouse's companies, and factoring in the market capitalizations of the conflicted Parties, and Alphabet Inc.

In this matter, Woodhouse initially complained to the District Court of interference with Customers, via felonious entry into his email, and Alphabet Inc., and Triple Conflicted Counsel were not able to deny the allegation, yet the District Court, failed to order discovery, and instead cited to Triple Conflicted Counsel's plead felony as the driving purpose for this dismissal. *Woodhouse's Complaint in 2:21-cv-06727*. Now, this conduct has evolved into 9th Circuit Judges illegally assigning assets randomly, in coercion schemes, here, and *Counsel Not of Record* committing fraud, in stealing *Orders*, in grotesque demonstrations of avarice, and iniquities. Moreover, after not being, either, restrained by the Court, or, ordered to

COMPLAINT AND REQUESTS

1 pay restitution, the Triple Conflicted Parties, Alphabet Inc., and Judicial officers
2 cohabitating with them in the genocide hotel, in Pismo Beach, CA., here,
3 commenced stealing Customer Orders from Woodhouse and Havensight Capital,
4 contacting existing and prospective Customers, feloniously representing that the
5 Conflicted Parties owned the companies, either, without any perfected judgments,
6 or, judgments against Havensight Capital, and even more bizarrely started falsely
7 imprisoning Havensight's Customers, in the genocide hotel. *Loretto v.*
8 *Teleprompter Manhattan CATV Corp.*, 153, 458 U.S. 419 (1982). *See Hyundai*
9 *Motor A. v. Natl. Union Fire*, 600 F.3d 1092 (9th Cir. 2010).

13 Woodhouse was made aware of this fraud, in actually witnessing the
14 imprisonment, overhearing the interaction with Customers, and even having
15 random felonious participation on conference calls by *Counsel Not of Record*, via
16 yelling across the street, while speaking on the phone with Customers. *See Van*
17 *Patten v. Vertical Fitness Group L.L.C.* 847 F.3d 1037 (9th Cir. 2017). *Decl. Mr.*
18 *B. Woodhouse*. Woodhouse even overheard the Judges stating that they would just
19 sign documents, assigning the companies to Woodhouse, and there was nothing
20 that Woodhouse could do about it. Judges are only able to order financial
21 monetary judgments, and injunctive relief, in select cases, there is no legal
22 authority for Judges to award anything other than these two types of restitution. In
23 fact, the practice of dispute resolution, which Woodhouse has a Certificate in from

1 the Straus Institute, is entirely predicated on this fact, and empowering Parties to
2 find other forms of restitution, external to the Courts. *Miranda B. v. Kitzhaber*,
3 328 F.3d 1181 (9th Cir. 2003).

4
5 If it is found that settlement payment from the Clients, were also embezzled,
6 then these acts, would also constitute, both, a public and private taking, and Fraud.
7 The U.S. Attorneys were charged with separating Judges and Triple Conflicted
8 Counsel, and Alphabet Inc. Counsel, they should have stopped the tortious takings
9 of settlement payments, here, in addition. The Customer Orders takings are
10 witnessed, discovery is needed to understand more how the settlement payment
11 from the Clients were embezzled. *Decl. Mr. B. Woodhouse*. Public Policy might
12 require more regulation, on how these payments are escrowed into the future.

13
14
15
16 If this already stated, conduct, was not sufficient to rise to the level of
17 corporate takings by Fraud committed by the U.S. Government, Triple Conflicted
18 Trillion Dollar Parties, and Alphabet Inc., the Judges and *Counsel Not of Record*,
19 also proceeded to imprison the Chinese Ambassador to the United States. This
20 deplorable action also materially interfered with Woodhouse's Havensight Capital
21 L.L.C. This imprisonment in the genocide hotel, served no purpose, and there was
22 no discovery at that point, ordered by any Judge, to warrant, either, the deposition
23 taking, or, imprisonment of the Chinese Ambassador. *Martinez v. City of Los*

COMPLAINT AND REQUESTS

1 *Angeles*, 141 F.3d 1373 (9th Cir. 1998)(U.S. Attorneys and Judges can be liable for
2 false imprisonment). *See Snow-Erlin v. U.S.*, 470 F.3d 804 (9th Cir. 2006).

3
4 Further, this was an act, here, it involved the use of deceit to imprison and
5 improperly depose the Chinese Ambassador, and the reliance on this fraud, caused
6 business damages to Woodhouse, via lost sales. *Hannon v. Sparlou v.* The
7 conflicted Parties, Judges, and Alphabet Inc. were the proximate cause as the
8 Chinese Ambassador was inhibited and bizarrely interrogated, on communication
9 from these Parties, since they were already acting in concert, and colluding, it is
10 not necessary for Woodhouse to plead the actual actor, which made the actual
11 material fraudulent misrepresentation to the Chinese Ambassador. Thus, scienter
12 for private fraud takings, and Government takings are found, in each and all acts of
13 stealing Orders, and interfering with Customers.

14
15 Additionally, such conduct: embarrassed Woodhouse, cost him valuable
16 sales of basketball sneakers to the People's Republic of China, and generally
17 demonstrated a complete lack of respect for legal ethics of any kind by the Judges,
18 conflicted Parties, and Alphabet Inc. *Decl. Mr. B. Woodhouse*. Triple Conflicted
19 Counsel, and the U.S. Attorneys never conferred at the Appellate level, if they had,
20 Woodhouse would have repeated written warnings, on this conduct. Rather, such
21 indecent acts simply illustrate some kind of special belief that this *Counsel Not of*

the Pismo Beach, CA. hotel, is some kind of special demonic dictator, who is above the law, no matter what degree the crimes committed are. Such acts of tyranny are banned by the due process of the *U.S. Constitution*.

III. IMPERSONATION OF COUNSEL AND MISREPRESENTATIONS OF RESOLUTIONS TO THE APPELLATE COURT IN VIOLATION OF THE TORT OF FRAUD

Woodhouse also alleges that he was tampered with as a witness, and that the Conflicted Parties, and Alphabet Inc. engaged in alleged *Fraud*, and *Civil R.I.C.O.*, as the act of impersonation of Counsel, and misrepresentations of resolutions, constitutes racketeering. *18 U.S.C. Section 1030. U.S. v. Kwan*, 03-50315oa (9th Cir. 2005). Further, they also can be construed as acts of dishonesty, which patently cause reliance to the detriment of another Party, and elevated Courts have recognized it, as a violation of the Fraud tort. *Veloz-Luvevano v. Lynch*, 799 F.3d 1308 (10th Cir. 2015). *U.S. v. Bakhtiari*, 913 F.2d 1053 (2d Cir. 1990). Even lesser acts, such as just impersonating emails, and not sending imposters to show up in person, have also been found to be felonious and sufficient to satisfy the tort of fraud. *Golb v. Attorney General of State*, 870 F.3d 89 (2d Cir. 2017).

COMPLAINT AND REQUESTS

1 Triple Conflicted Counsel prevailed with sanctions, in matter 2:22-cv-
2 00079, despite having entered emails to the Court Clerk, in addition to settlement
3 offers feloniously, thus it is known that the conflicted Parties, and Alphabet Inc.
4 routinely had improper contacts with the Court and Appellate Court. This practice
5 is improper, and causes many complex situations for economically weaker Parties,
6 which are punished conversely for any contact with the Courts. Woodhouse had
7 no contact, other than proper filings, with the District, and Appellate Court in these
8 matters. *Decl. Mr. B. Woodhouse.*

12 Further, this unabated practice commenced with an alleged French foreign
13 agent masquerading, as Woodhouse's Counsel at the District level, at Triple
14 Conflicted Counsel's request. Next, at the Appellate level, an Asian American
15 Women, who is still unknown to Woodhouse, and an Indian American gentleman,
16 also, whose name is unknown to Woodhouse, would also pose as Woodhouse's
17 Counsel, and negotiate fallacious resolutions with Gibson Dunn, inside the
18 genocide hotel. Triple Conflicted Counsel had already been warned about such
19 practices in correspondences, and the U.S. Attorneys in over fifty written
20 correspondences. Woodhouse stated he was the only *Counsel of Record*, and he
21 also communicated that he would not enter the genocide hotel for any reason, as it
22 contained dangerous firearms, and *Counsel Not of Record*, was conducting
23 impromptu death trials for reasons unknown.

COMPLAINT AND REQUESTS

Moreover, it is also made limited sense, this practice, as fallacious settlements with imposters, would have been more clandestine in Gibson Dunn's own offices, why it was allegedly paying bribes to Judges, and making noise trespasses consistently, about misrepresenting resolutions with imposter Counsels, seem to be all of the following: irrational, unethical, and very non crafty. Woodhouse also believes that the failure for the U.S. Attorneys, *Counsel Not of Record*, and Triple Conflicted Counsel to disentangle, quite literally, and geographically, created an environment of enablement for collusion, which set of the genocide events witnessed, and this felonious impersonation of Counsel, and felonious misrepresentations. Further, Skadden Arps is not a named Defendant, here, but they are also believed to have, either, interfered with these matters, or, participated in this impersonation of Counsel schemata, will be added as Defendants, in the discovery period. *Decl. Mr. B. Woodhouse.*

The acts of holding meetings, with impersonators, hiring impersonators, and having improper contacts with the District, and Appellate Court, meet the elements of racketeering, as it is a collusive act, intended to subjugate Woodhouse, and his companies. Further, the Parties, here, are the U.S. Government, and publicly traded trillion dollars companies, thus they are enterprises. Finally, they are the proximate cause of the racketeering, as Woodhouse witnessed them, engaging in

COMPLAINT AND REQUESTS

1 the felonious impersonations, and in boasting about such illegal conduct from the
2 genocide hotel. *Niebel v. Trans World*, 108 F.3d 1123 (9th Cir. 1997).

3 Additionally, these witnessed to facts, also, satisfy the requirements of
4 Fraud. As an act, misrepresenting representation feloniously, is dishonest, and
5 causes reliance from the Courts, these conflicted Parties, and Alphabet Inc., are
6 also the proximate cause, via Woodhouse's attestation to these acts. *Hannon v.*
7 *Sparlou v.* Moreover, the continued obstruction of the production of the binders of
8 depositions of impersonators, which Triple Conflicted Counsel, provided to the
9 District Court, but then lied about their existence to the 9th Circuit, makes it more
10 likely than not, that the Triple Conflicted Parties, and Alphabet Inc. engage in this
11 conduct. *Combs v.* There is also historical precedent for Ms. Clinton paying dirty
12 bribes, and interfering as an additional *Counsel Not of Record* and crooked
13 consultant. She was declared a "shill" for organized criminals, as in this case, on
14 tampering with witnesses previously. *Flowers v. Carville*, 310 F.3d 1118 (9th
15 Cir. 2002). Perhaps, she allegedly had proverbially a hand in the till, when bribing
16 the Japanese American terrorists, not just Ms. Sandberg, and Meta Platform
17 Leadership? Thus, the tort of fraud should be found, and it is within the interest of
18 public policy for bloated Law Firms to be enjoined from felonious impersonations,
19 as such impersonations killed Woodhouse's Rhode Scholar Colleague.

IV. INTENTION INFLICTION OF EMOTIONAL DISTRESS

The tort of intentional infliction of emotional distress, required a Defendant to commit an extreme and outrageous act, either, intentionally, or, recklessly, be the proximate cause, and cause actual distress. *English v. General Elec. Co.*, 496 U.S. 72 (1990). *Bender v. City of New York*, 78 F.3d 787 (2d Cir. 1996). Further, either, a special relationship between Parties, or, fiduciary duty, such as a Judge's to Counsels etc. can be considered for determining whether an act is extreme and outrageous. *Hubbard v. Allied Van Lines, Inc.*, 540 F.2d 1224, 1230 (4th Cir. 1976). Finally, the 9th Circuit has held that even embarrassing conduct, can be grounds for this tort. *Tellez v. Pacific Gas and Electric Company*, 817 F.2d 536 (9th Cir. 1987)(defaming publishment of letter about individual purchasing cocaine sufficient for I.I.E.D. claim).

First, it is alleged that the Triple Conflicted Parties, Alphabet Inc., and the U.S. Government are responsible, here, for doctoring State Court Records, to make Woodhouse a convict, when he is an upstanding Member of the California Bar, and also a service award winner, who have never been convicted of any non traffic related offense. This conduct, here, is directly analogous to the publishing of a letter, accusing someone of purchasing cocaine, and Tellez is directly on point. The conflicted Parties, Alphabet Inc., and the U.S. Government, are alleged to be the proximate cause of this conduct, and Woodhouse has been mortified by the

COMPLAINT AND REQUESTS

1 doctored record, such that he has physical ailments, including extreme stomach
2 pain, sickness, shortness of breath, and sleep deprivation. *Decl. Mr. B.*

3 *Woodhouse*. Further, acts of excessive force from the U.S. Government have been
4 found to be sufficient to constitute excessive force. *Harris v. U.S. Dept. of*
5 *Homeland Affairs*, 776 F.3d 907 (D.C. Cir. 2015)(excessive force constituted the
6 tort of I.I.E.D.).
7
8

9 Second, Woodhouse has suffered extreme distress, actual sickness and sleep
10 deprivation, as a result of verbal harassment from Gibson Dunn *Counsel Not of*
11 *Record*, U.S. Attorneys, and Judges from the genocide hotel across the street.
12 These slurs and epitaphs come at all hours of the night, usually between two and
13 four in the morning, as the Parties, while cohabitating liked to sleep during day
14 while Woodhouse was busy working. Further, the Judges and U.S. Attorneys had
15 a fiduciary duty to Woodhouse, to not engage in conduct, which causes physical
16 harm, and emotional distress. *Hubbard v.* Such wanton respect for the sanctity of
17 life, in this matter, warrants a Jury, deciding on this tort.
18
19
20
21

22 Third, Woodhouse contends that having to witness: a Wilson Sonsini
23 *Counsel Not of Record*, and 9th Circuit Judge being burned, over hundred people
24 executed in impromptu death trials by Gibson Dunn *Counsel Not of Record*,
25 watching his niece perform sex acts for Judges and his friends, at the order of the
26 Judges, and the Yakuza and Dutch contractor military onslaughts onto
27
28

COMPLAINT AND REQUESTS

1 Woodhouse's property, are all extreme and outrageous acts by any Party's
2 definition. *English v.* These acts are historically evil, and violate any *Model Rules*
3 *of Attorney Conduct* ever written. Further, if these Parties are not found liable, it
4 also opens the door to mass executions on all matters, and the ending of our legal
5 profession.
6

7
8 Moreover, the Triple Conflicted Parties, Alphabet Inc., and the U.S.
9 Government, were the proximate cause, in participating, funding, and negligently
10 ignoring these patent criminal acts. Finally, it is undoubted that Woodhouse
11 suffered actual harm, as these acts, caused severe mental distress, sleep
12 deprivation, shortness of breath, violent panic attacks, irregular heartbeats, severe
13 weight gain, convulsions, and general physical depression. Woodhouse, also, was
14 unable to engage in relations, as a result of violent night invasions, defamation
15 from: Judges, U.S. Attorneys, and Counsels of his heterosexual orientation, lost
16 income from Customer Orders, and constant physical discomfort. *Decl. Mr. B.*
17 *Woodhouse.* Thus, Woodhouse not only sufficiently plead for this tort, this case
18 could be the absolute historical apex of outrageous conduct to satisfy the tort of
19 I.I.E.D.

26 **V. VIOLATION OF PRIVACY RIGHTS VIA USE OF FACIAL**
27 **RECOGNITION TECHNOLOGY. WOODHOUSE AND**
28 ***COMPLAINT AND REQUESTS***

1 **HAVENSIGHT HAVE OPTED OUT OF THE CLASS**
2 **ACTION SETTLEMENT**

3 Furthermore, the Federal Courts have deemed Facebook's facial recognition
4 technology, to invade Woodhouse's privacy rights. Specifically, the Court decreed
5 that the implementation of a face template using facial recognition desecrates an
6 individual's privacy and concrete interests." *Patel et al.* Woodhouse, here, used
7 Facebook during the class action period, as a Customer. *See Davis v. Facebook*
8 *Inc.*, 956 F.3d 589 (9th Cir. 2020). Woodhouse, here, has submitted an opt out to
9 the class action settlement, once notified about the class action. *Decl. Mr. B.*
10 *Woodhouse.*

11 Thus, Facebook Inc., here, must answer in this Federal Court for its civil
12 rights violations, and a jury should determine what compensatory and punitive
13 damages should be. The Court cannot dismiss this suit, after the 9th Circuit has
14 already found this practice to be a civil rights violation, and to prejudice
15 Woodhouse, against recovery, which similarly situated Customers have been
16 awarded, would simply be further evidence of Constitutional due process
17 violations by the Court. Finally, the Court, here, can also separately, and
18 additionally add compensatory and punitive damages for these privacy violations
19 under *California Business and Professions Code Section 17000*.

20 **COMPLAINT AND REQUESTS**

Moreover, Woodhouse also alleges that Federal Judges used, either, military technology, or, other technologies to watch Woodhouse, in the privacy of his bedroom and bathroom, with Federal Judges, illegally situated, making comments, which Woodhouse could hear, while he showered. *Cramer v. Consolidated Freightways Inc.*, 255 F.3d 683 (9th Cir. 2001). Woodhouse also frequently heard Gibson Dunn *Counsel Not Of Record*, responding to movements, and actions, within Woodhouse's bedroom, here, such as examining documents, searching for items, and arranging objects. As some of these acts were silent, it suggested that Gibson Dunn *Counsel Not of Record*, had access to videos surveillance of Woodhouse's room. Judges did not have a warrant for such surveillance, and making accusations against Woodhouse, are not sufficient for such surveillance programs to be created. The Space Force, and U.S. Army should confer, on whether such surveillance existed within the hotel.

Woodhouse is unsure, if Meta Platforms, Nike Inc., and Alphabet Inc., were complicit in, either, this practice, or, funded this spying on Woodhouse, but could be liable for failing to report it. Besides, being incredibly disgusting and sick, and mirroring the sexual torture of Woodhouse's distantly related niece, this practice also jeopardized Woodhouse's safety, and compromised his ability to defend himself against foreign agents, and other assassination attempts from the conflicted Parties, and Alphabet Inc. *Cramer v. United States*, 847 F.3d 1037 (9th Cir.

COMPLAINT AND REQUESTS

2017). As the Federal Judges security clearances do not supersede that of Woodhouse's, they should be tried for treason, if it is found, in discovery that the cameras in Woodhouse's bedroom and bathroom, were utilized to allow for foreign hits, and the destabilization of U.S. National Security interests. Finally, such a practice is trespass, and replicates, similar facial recognition crimes, which Facebook Inc. has already found to be guilty of.

VI. ACT OF TREASON IN HACKING GOVERNMENT SYSTEMS AND DOCTORING STATE COURT RECORDS IN ADDITION TO HAVENSIGHT CAPITAL'S COMPUTER SYSTEMS

Under the law, it is a punishable crime, a violation of the *Civil R.I.C.O. Statute*, and treason against the State, for a private Company to illegally hack the system, of, either, the U.S. Government, or, another private Company. It is not necessary for data to be, either, stolen, or, doctored, but, here, data was. *18 U.S.C. Section 1030. D.S.P.T. Inc. v. Nahum*, 624 F. 3d 1213 (9th Cir. 2010). *U.S. v. Mett*, 178 F.3d 1058 (9th Cir. 1999). In the facts alleged, the conflicted Parties, and Alphabet Inc., here, have breached both types of systems, stolen data, and used stolen data: to improperly access Customers, change Woodhouse's Government records, and embezzle assets. *Center for Nat. Sec. Studies v. Dept. of Justice*, 331

COMPLAINT AND REQUESTS

1 F.3d 918 (D.C. Cir. 2003). There is precedence to default Parties for such
2 felonious conduct. *Combs v. Richmark Corp. v. Timber Falling Consultants*, 959
3 F.2d 1468, 1475 (9th Cir. 1992)(electronic taking grounds for default). Even the
4 most liberal interpretation of the felonious conduct, requires restitution for victims.
5 *U.S. v. Johnson*, 297 F.3d 845 (9th Cir. 2002)(restitution required for mail fraud
6 victims). Additionally, and on point, the Appellate Court in the District of
7 Columbia has found the withholding of documents, records, and evidence, in
8 connection to alleged genocide to be actionable in itself. *Krikorian v. Department*
9 *of State*, 984 F.2d 461 (D.C. Cir. 1993).

13 Moreover, this is not the first time that Nike Inc. has been caught engaging
14 in dirty acts of doctoring evidence, in fact, in this very Federal Court, it was found
15 to have conspired with the Yakuza, to doctor custom documents in order to
16 unfairly gain from the plight of U.S. manufacturers. *Nike, Inc. v. Rubber Mfrs.*
17 *Ass'n, Inc.*, 509 F. Supp. 912 (S.D.N.Y. 1981). Nike Inc., here, is attempting to
18 scuttle Woodhouse, and his Havensight Capital's St. Thomas F.c. global sports
19 brand by engaging in: fraudulent practices, coercing Courts, and even being
20 responsible under agent liability for the burning to death of the 9th Circuit Judge by
21 *Gibson Dunn Counsel Not of Record*, and the Chairman of Wilson Sonsini. While
22 Woodhouse, here, alleges that it was Ms. Sandberg and Meta Platforms Inc., which
23 paid the Yakuza close to \$50MM U.S. for assassination attempts on Woodhouse, it

COMPLAINT AND REQUESTS

1 is more likely than not that Nike Inc., has direct knowledge of this criminal act, as
2 it has engaged in similar behavior in the past.

3 It is, also, alleged but patently true, here, that the Triple Conflicted Parties,
4 and Alphabet Inc., here, routinely entered Havensight and Woodhouse's emails,
5 and computer systems, in order to run down Woodhouse's Customers. Woodhouse
6 never provided these Parties with a Customer List, and prospective Customers
7 were run down on a real time basis. Woodhouse alleges interference with
8 Customers at: Good Oil Company, in Indiana, Bunzl distribution, and Khawar
9 Sons, just to name a few. All of these Customers experienced some kind of
10 harassment either, over the phone, or, in person. It is even alleged that these
11 demonic prats, went down to Belize, in order to interfere with the Belize Football
12 Federation, and steal an order of St. Thomas F.c. soccer shoes, when there was no
13 legal basis for such interference.
14
15
16
17
18

19 Moreover, notwithstanding the fact that Triple Conflicted Counsel, and
20 Alphabet Inc. frequently entered Woodhouse's email, such that they even
21 referenced, bills, orders, and attorney work product, in their noise trespasses from
22 the genocide hotel. *Decl. Mr. B. Woodhouse*. There is actual evidence from
23 Customers: being interfered with on a daily basis, Customers being imprisoned in
24 the genocide hotel, and Woodhouse overhearing the conflicted Parties, and
25 Alphabet Inc. declaring ownership of the companies to the Customers. Such
26
27
28

COMPLAINT AND REQUESTS

1 dishonest declarations came with no perfected judgments in place, and there
2 having been no judgments against Havensight Capital L.L.C. up to present. *Court*
3 *Record*. Woodhouse, and Havensight Capital L.L.C. also routinely warned the
4 conflicted Parties, and Alphabet Inc., via numerous written correspondences,
5 which can be produced at the Court's request, about interfering with Customers
6 and making fraudulent representations about ownership.
7
8

9 Moreover, if any Judges had illegally conveyed to these Parties that they had
10 ownership, it should have been disclosed to Woodhouse and Havensight, via
11 conferral. Woodhouse could have then assisted the misguided Judges on how
12 takings work, and avoided having to accuse these Judges of embezzlement. *Decl.*
13 *Mr. B. Woodhouse*. Additionally, if Judges had not been cohabitating in the
14 genocide hotel, and feeling economic pressure to create funds for ladies of the
15 night, hotel bills, and other items, as their meals were paid for by Alphabet Inc.,
16 and the Triple Conflicted companies, it might have occurred to them that taking
17 private assets, was not a clever idea.
18
19
20
21

22 The Statute, *18 U.S.C. 1964* states that "The RICO statute prohibits four
23 types of activities: (1) investing in, (2) acquiring, or (3) conducting or participating
24 in an enterprise with income derived from a pattern of racketeering activity or
25 collection of an unlawful debt, or (4) conspiring to commit any of the first three
26 types of activity. Moreover, the Defendants must be the proximate cause of such
27
28

COMPLAINT AND REQUESTS

1 harm.” In this matter, here, the elements are precisely met, the entities are
2 enterprises by definition, as they are large publicly traded companies, injecting
3 billions of dollars worth of goods into the economy. Further, they are working
4 together racketeering, here, as the conflicted Parties, and Alphabet Inc.,
5 communicated in a racketeering pattern, fraudulent conveyances to prospective and
6 existing Customers of Havensight Capital, including but not limited to, warranting
7 ownership of the companies, stealing of Customer Orders, in which Woodhouse
8 overheard the conflicted Parties, and Alphabet Inc. boasting about stealing orders,
9 after Woodhouse had taken calls with Clients. These are not alleged torts,
10 Woodhouse is a material witness to the actual takings, in overhearing the boasting,
11 conversations with falsely imprisoned Customers, and in the communication of lost
12 orders, after shipping samples, and engaging in dialogues. *Decl. B. Woodhouse.*

13 Additionally, it steps into the realm of treason, in addition to Civil R.I.C.O.
14 racketeering violations when the Parties entered Government systems to doctored
15 Woodhouse’s records. *Cramer v. U.S.* Such behavior undermines the U.S.
16 Government, and could be viewed as a means to subterfuge the Government as a
17 whole. It is already alleged that Triple Conflicted Counsel used a French foreign
18 agent to pretend to be Woodhouse’s Counsel at the District Court level, it is
19 possible that doctoring Woodhouse’s record, is within a schemata for the trillion

dollar companies to control all Government records, and punish any who challenge their economic prowess and authority.

Moreover, Woodhouse has standing to challenge the treason against the United States, as it is accomplished via the doctoring of his personal records, and in a mode that affects his legal rights. Communication and data privacy has also been recognized to have a physical and spatial quantity by the Supreme Court, and not just be an amorphous concept. *U.S. v. Katz*, 389 U.S. 347 (1967)(expectation of privacy in public telephone booth). Whether the cohabitation and collusion of the Judges, U.S. Attorneys, Counsels *Not of Record*, and Conflicted Counsels of Record, should be construed as treason, potentially could be a question for the Executive Office, but undoubtedly, the conflicted Parties, Alphabet Inc., and the U.S. Government, at the very least, should be liable for restitution for defaming Woodhouse, influencing the initial matters feloniously, and generally showing a malaise to basic legal decency.

Finally, Woodhouse also contends that the binders of imposters, which Triple Conflicted Counsel provided to the District Court, but never provided to Woodhouse, and which killed his Rhode Scholar colleague, demonstrate a schema of stealing information, and impersonating important actors by the Defendants. Such an act is obstructive, and could be viewed as a Civil R.I.C.O. violation, as it is a pattern of racketeering between the Parties, they are the proximate cause, and

COMPLAINT AND REQUESTS

as aforementioned, they are enterprises. While it is true the District Court prematurely removed them, and awarding sanctions on their felonious contacts with the Court Clerk, as the California Bar can testify to the production of the binders, and Triple Conflicted Counsel committed perjury in the 9th Circuit Brief, this matter should also be examined in discovery, as it is connected to a schemata of this behavior. *Court Record 2:22-cv-00079. 18 U.S.C. Section 1030. Combs v.* This pattern of obstructive behavior, felonious misrepresentations, trespass and entry into private computer systems, speaks to an over arching vortex of acts, surmountable to treason, these acts affect Woodhouse's business and legal rights, and on a more global level, there might be a storm brewing, between the U.S. Government, and these companies, which are becoming more military proficient and tactical that the U.S. Senate does not understand. Perhaps, calling Executives to enjoy camera time, lob soft balls, and talk about nonsensical and esoteric new products is not the answer. Perhaps, the U.S. Senate Leaders, conversely, should consider, instead, telling everyone at the Companies "to get the fuck down," take their respective computer systems, and allow the Companies to resolve, once they have been demilitarized. Nonetheless, the stealing of private data for takings, embezzlement and harassment, needs to be addressed, and restitution needs to be ordered.

COMPLAINT AND REQUESTS

VII. REQUEST FOR A PROTECTIVE ORDER

Woodhouse requests from the Court a *Protective Order*, which not only provides protection during the litigation for Woodhouse, against organized criminal groups, which the Defendants have paid for assassinations, as aforementioned, but more importantly enjoins all Judges, U.S. Attorneys, Counsels of Record, and *Counsels Not of Record* from the genocide hotel, in Pismo Beach, CA. and all hotels, within a 15 mile radius of the property of Woodhouse's family. *Farnsworth v. Proctor and Gamble*, 758 F.2d 1545 (11th Cir. 1985). Yakuza are basing, armed machine attacks onto the property of Woodhouse's family from this hotel, *Counsel Not of Record* has been listening in, and using the location to spy on Woodhouse's business operations and legal attorney work product creation, in addition to committing witnesses acts of genocide. *Decl. Mr. B. Woodhouse. Convention on the Prevention and Punishment of the Crime of Genocide, Dec. 9 1948*. It is critical to the safety, and Woodhouse, and in the interest of fairness that U.S. Marshals, remove these individuals from the genocide hotel, as this matter is adjudicated. The Court must use a weight of factors test, to determine whether there is good cause for the granting of such *Motion*.

Moreover, there is legal precedent for the Courts to provide legal protection, even just for protection of attorney work product, and notwithstanding the onslaught of contractor, and organized criminal attacks that Woodhouse is taking,

COMPLAINT AND REQUESTS

1 on a nightly basis. *Phillips v. General Motors*, 289 F.3d 1117 (9th Cir. 2002).
2 Woodhouse also believes that the weighing of factors test is met, here, as it is
3 alleged that the Defendants, in addition have also caused serious sleep deprivation,
4 in its attacks on Woodhouse, which should be considered to be undue and
5 unnecessary bodily harm. *Decl. B. Woodhouse*. While Woodhouse works day and
6 night to operate his small businesses, terrorist *Counsel Not of Record*, and Judges
7 take sojourns during the day and then wake up at 2 a.m. p.s.t. to start chanting
8 slurs, and boasting about impersonation of Counsel.
9
10
11

12 Furthermore, the *Request for a Protection Order* should be narrowly tailored
13 to make this restriction, which is not overly burdensome as there are literally
14 thousands of other hotels in Santa Barbara, and San Luis Obispo counties, and it is
15 likely that Woodhouse will breach the hotel himself, if sleep deprivation continues,
16 and more of his business calls, are interrupted by slurs from *Counsel Not of*
17 *Record*, and U.S. Attorneys. Woodhouse conferred with Triple Conflicted
18 Counsel, Alphabet Inc.'s Counsel, and the U.S. Attorneys on this filing. Finally,
19 Woodhouse has many Japanese American friends, and colleagues, including fellow
20 Members of the California Bar. He is frightened that more terrorist behavior from
21 these organized criminal groups, will lead to genocide in the wrong direction, and
22 the desecration of important civil rights, in essence, the Court, needs to help these
23 Companies with preservation of life now, not encourage them with their attempts

COMPLAINT AND REQUESTS

1 to bill for historic felonies, conflicts, red flagged cases, and genocide. I hereby,
 2 declare, all facts and statements in this *Request* are true to the best of my
 3 knowledge.
 4

5 Moreover, if the District Court fails to enforce the genocide and terrorist
 6 invasions, counter terrorist intervention will have to be deferred to. The 9th Circuit
 7 has already demonstrated it has no volition, and this is even when Parties burn to
 8 death their own, and plead historic felonies, conflicts, and red flagged cases. Thus,
 9 this Court must demonstrate that it can stop a path to Constitutional Controversies,
 10 and protect due process, by demonstrating that it enforce basic procedural and
 11 rulings, when bloated Law Firms, become terrorist entities.

16 **VIII. *REQUEST FOR CONTEMPT ORDER AGAINST THE U.S.***
 17 ***GOVERNMENT IN ORDER TO COMPEL THE VIDEOS OF***
 18 ***GENOCIDE***
 19

20 Woodhouse brings a *Request* for contempt against the U.S. Government, in
 21 general, and also more specifically against the U.S. Space Force, and United States
 22 Army, to compel the production of the videos of *Counsel Not of Record*, engaging
 23 in genocide, via impromptu death trials, and for the burning alive of the Wilson
 24 Sonsini *Counsel Not of Record*, and of a 9th Circuit Judge, who was of cultural
 25 significance to the Caribbean, where Woodhouse comes from. *Michaelson v.*
 26
 27
 28

COMPLAINT AND REQUESTS

1 *United States*, 266 U.S. 42, 65 (1924). The acts of genocide videos should be
2 directly provided to the District Court, the U.S. Senate, and the Solicitor General's
3 Office, it should not be provided to Woodhouse indirectly for submission. That
4 said, even if the Court does not grant the *Request*, Woodhouse intends to find a
5 private source of production, and enter the videos into evidence, before Triple
6 Conflicted Counsel can make an affirmative defensive filing, which based on the
7 fact that he has knowledge of these events, will be perjurious in its own right.
8
9 Woodhouse is also aware of an imposter of the burned alive Judge, who is not a
10 good replicant, wandering around the genocide hotel in recent weeks, this will not
11 help Triple Conflicted Counsel, either, as the videos can be authenticated. *Federal*
12 *Rules of Evidence 403*.

13
14
15
16 The Ninth Circuit has held in anti-trust matters, civil orders of contempt, are
17 necessary filings, in order to allow Plaintiffs to have access to substantive
18 evidence. *United States v. Falstaff Brewing Corp.*, 410 U.S. 526 (1973). *See*
19 *Barrientos v. Wells Fargo*, 633 F.3d 1186 (9th Cir. 2011). Intent is also not
20 required, here, for the District Court to make such a ruling, only the interest in
21 justice of production of the evidence. *McComb v. Jacksonville Paper Company*,
22 336 U.S. 187 (1949). This proposed Order should be narrowly construed, no
23 either, adverse action, or, direct liability, is attributed, either, to the U.S. Army, or,
24 U.S. Space Force. We expect these Agencies and part of the U.S. Government to

support Woodhouse's filing, in order to restore basic decorum, and democratic values to the United States Government. Moreover, interests of privacy are not paramount, in instances, where Parties, have engaged in terrorist acts, and attempted to subjugate the U.S. Government to private contractors, and conflicted trillion dollar Parties. *U.S.A. Patriot Act*. I have conferred on this *Request*.

IX. RECOMMENDED REMEDIATION PLAN FOR U.S. SENATE

First, the U.S. Senate must understand that the proverbial joke is that Courts and Judges are on the take in such terrible manner, that it is not possible for restitution, unless you, either, kill the Judge, or, kill a baby. In this matter, both acts, were effectuated, and I am witness to the burning alive of the 9th Circuit Judge and Wilson Sonsini *Counsel Not of Record*. *Decl. Mr. B. Woodhouse*. Whether someone set Gibson Dunn *Counsel Not of Record* up to this, to prove this point, only discovery, and A.G. Bonta can tell us. Undoubtedly, the U.S. Senate have to come in to this case, after being served with copies, yet not being named Defendants, and inject whatever discipline is needed, to return the Courts to basic functionality. The U.S. Senate need to create procedural safeguards such that the 9th Circuit does not go terrorist ever again, even in the wake of conflicted trillion dollar companies litigating.

1 Second, the U.S. Senate needs to take possession of these conflicted trillion
2 dollar Companies, and Alphabet Inc., to determine:

3 who is responsible for the Vietnam style platoons of military contractors,
4 why Ms. Sandberg and Meta Platforms purchased assassinations from the
5 Japanese Yakuza, what procedures can be set in place, such that Executives
6 do not engage in terrorist conduct, and how these conflicted Parties are
7 paying bribes to the Courts, such that they can not even assign basic
8 matters?
9
10
11

12 A private trustee needs to be appointed for each, and every Company, and it needs
13 to be someone with investigative experience, into such acts of indecency.
14

15 Further, third, the U.S. Senate also needs to enact legislation, here, which
16 keeps separation between U.S. Attorneys, Judges, and Private Parties, such that we
17 do not get large groups cohabitating, engaging in brain damage and terrorism, all,
18 collectively. We also need legislation that creates military help desk for Plaintiffs,
19 and Judges, and can rise to the challenges of modern day litigations against
20 corporate entities. Also, a Plaintiffs union in Washington that also has access to
21 advocates for the profession, needs to be set up. Perhaps, a Leader from Italy
22 could assist with leading such a Union. It could be funded by a mandatory 10%
23 commission on all settlements and awards. In Italy, there, they had a “clean
24 hands” movement led by the Free Press, within their Judicial system, after coercion
25
26
27
28

COMPLAINT AND REQUESTS

1 became a problem. Perhaps, our movement could be appropriately named “the
2 movement away from dirty miscreants.”

3 Fourth, Ninth Circuit Judges need to be paid on reversals, and District
4 Judges need to be paid, based on actual production trials, there should be a base
5 salary, with most salary coming from the commissions earned for actual trials, thus
6 matters will move forward, as the Judges go for trial commissions and not bribes.
7
8 Fifth, Gibson Dunn needs to be dismantled, it is patently obvious that they pay
9 bribes, to: the F.B.I., to Federal Judges, and other Members of the U.S.
10 Government, and this comes in addition to Ms. Clinton’s extraordinary
11 consultancy work. Ms. Clinton should donate her consultancy fee and take
12 responsibility for the death of my Rhode Scholar colleague. Mr. Van Schwing also
13 needs to be dismissed from the California Bar for brazenly attempting to bill for
14 historic felonies, conflicts, and red flagged cases, in addition to genocide. He does
15 not confer, on his criminal conduct, and conflicts, and is not bright enough to pay
16 the bribes he does, without getting caught. Lastly, Woodhouse advocates for the
17 award of medals to the California State Police for valiantly attempting to beach the
18 genocide hotel, and taking fire in the parking lot.

26 **X. REQUEST FOR RE-INSTATEMENT OF ELECTRONIC FILING**
27 **PRIVILEGES**
28

COMPLAINT AND REQUESTS

Woodhouse moves the D.C. District Court to re-instate his electronic filing privileges in the Central District of California. These were arbitrarily, and capriciously, removed by Judge Blumenfeld, after Woodhouse suggested that obstructing him from the binders of depositions of imposters, which killed his Rhode Scholar Colleague, might be inappropriate. Fortunately, for Judge Blumenfeld her death means nothing to the 9th Circuit, they are playing for the Triple Conflicted Handicapped that plead the most felonies and conflicts in U.S. history, as the proverb goes, Good People die, when Bad People take bribes. These binders of illegal discovery still have not been produced, and Judge Blumenthal is symbolically a Defendant to this suit.

It is in within the interest of economic, and judicial economy, for Woodhouse to be able to file documents electronically. Further, the 9th Circuit has stated that such restrictions are unconstitutional and violate due process. *Rinngold Lckhrt v. Los Angeles County*, 761 F.3d 1057, 1067 (9th Cir. 2014). Moreover, the District Court should not, either, prejudice these proceedings, or, be censured for making administrative hurdles that are not meaningful, in affecting what is Constitutionally gifted due process. *U.S. Constitutional Amendment I*.

On an additional note, Woodhouse found about one day of the California Bar to be dedicated to conflict checks, essays, and multiple choice. Triple Conflicted Counsel, here, represented three conflicted Parties at once, including

COMPLAINT AND REQUESTS

trillion dollar companies, who could afford any Counsel, as he had previously represented Alphabet Inc., via his co-Counsel, he was actually quadra conflicted. Perhaps, the District Court should slow down on taking away due process, and curtailing the rights of small business Leaders, and start to focus on some very simple legal basics. Judges complain that the Clerks cannot get hired, but then uphold a quadra conflicts, with the most plead felonies in history, and genocide. If the Judges do not respect the profession, there cannot be one, running around help a Dutch bourgeois, who cannot write his own name, just makes all Members of the California Bar, look like the foundation of the legal system, is just a supercilious exercise in futility.

XI. CONCLUSION AND REQUEST FOR DAMAGES

In conclusion, the District Court should default all of the Defendants and hold them liable for: doctoring *Court Records*, entering private computer systems, engaging in genocide, engaging in infanticide, all of which videotapes are in possession of the U.S. Government, witness intimidation through the funding of terrorist groups, attempting to profit from the most plead felonies and conflicts in U.S. legal history through coercion of the Courts, and taking Woodhouse's companies, via interference with Customers and the actual obtainment of Customer Orders. Woodhouse seeks U.S. \$471,000,000 in compensatory damages, and

COMPLAINT AND REQUESTS

1 \$409,000,000 in punitive damages for each, and every respective Defendant.

2 *Dang v. Cross*, 422 F.3d 800, 804 (9th Cir. 2005). The District Court must also
 3 grant the protective Order, until the conclusion of all litigation and appeals, around
 4 this matter are resolved to the satisfaction of all Parties, or, a Jury has decided on
 5 compensatory and punitive damages. These damages are nominal considering,
 6 Woodhouse can attest to takings of all of his companies. Woodhouse also
 7 admonishes those, who cite economic inequities, as a basis for the trillion dollar
 8 conflicted Parties to prevail, Amazon was completely unprofitable as a Company
 9 when taken public, the Owners would have taken nothing without funding, and is
 10 now the largest in the U.S. at One point three trillion dollars.
 11
 12
 13
 14

15 16 **XII. REQUEST FOR A JURY TRIAL**

17 Woodhouse makes a request for a Jury Trial as is permitted under F.R.C.P.
 18 39, and is specified also, on the Plaintiff's *Cover Sheet*.
 19
 20

21 22 **XIII. STATEMENT OF JURISDICTION AND VENUE**

23 It is appropriate for this matter to be heard in the Southern District of New
 24 York, as this matter involves a Federal question, with a Civil R.I.C.O. Statute
 25 forming a basis of liability, and the Parties being diverse and the controversy
 26 exceeding over U.S. \$75,000. 28 *U.S.C. Section 1331-2*. Further, these atrocities,
 27
 28

COMPLAINT AND REQUESTS

1 including the acts of genocide which the U.S. Government possess videotapes of,
2 all concern the U.S. Attorneys Office, which is based in the Southern District of
3 New York, and acts of genocide, would constitute an issue triable in the location of
4 the United Nations, as it pertains to global issues of civil rights. There is also a
5 policy interest, in the matter, being heard in an independent jurisdiction, as it deals
6 with genocide and the abuse of power from conflicted Government actors.
7
8

9 Woodhouse also attempted to file the matter in the District Court in the
10 Central District of California and was denied due process, as Judge Blumenfeld
11 removed Woodhouse's filing abilities at the Court, in retaliation for a filing,
12 requesting that the illegally submitted binders of depositions of imposters, which
13 are responsible for the death of Woodhouse's Rhode Scholar colleague, be
14 produced. *Decl. B. Woodhouse. U.S. Constitution I. Combs v.* While the
15 Defendants committed perjury in the 9th Circuit, denying the existence of the
16 binders, Woodhouse knows them to exist, as they were provided to the California
17 Bar by Judge Blumenfeld, in a bizarre act of self incrimination. Thus, other venues
18 are not available, until due process is restored. It is also critical that this Federal
19 Court rise to the challenge of what might the most serious legal event in the last
20 decade, and what might have perpetual consequences for the future of the
21 profession, the safety of legal actors, and basic decency in regards to privacy.

COMPLAINT AND REQUESTS

**XIV. ATTORNEY APPEARANCE AND REQUEST FOR
APPEARANCE VIA TELEPHONIC MODE**

Woodhouse is a member of the California Bar, he is permitted to appear in the Southern District of New York, as he is appearing pro se, and standing up for himself, in filing this action. Furthermore, the Southern District of New York also allows for appearances from Counsels of other jurisdictions, without pro hac vice being granted, if they are representing an indigent, and Mr. Woodhouse would qualify currently for this status. Mr. Woodhouse is also not taking a fee from any Client in participating in this action. *Decl. Mr. B. Woodhouse.*

Woodhouse also requests that he be permitted to appear at Motion hearings, and the Joint Case Scheduling Conference, via telephonic appearance. *King v. Garcia*, 21-cv-09118 (PMH) (S.D.N.Y. 2022). In person appearances could be economically unviable from the Los Angeles area, and St. Thomas, U.S.V.I. locations for Woodhouse. Moreover, Woodhouse also intends to personally protect his elderly parents, until a *Protective Order* is granted, and the illegal actors are away from the genocide hotel, across the street. *Decl. Mr. B. Woodhouse.* Mr. Woodhouse also humbly requests that telephonic appearance instructions be published into the Court record, such that he can appear telephonically, without disturbing the Court for further guidance.
